Breakthrough to Excellence

Plan to attend the CCSNMMI's Annual Spring meeting which will be held at the Kensington Hotel on State Street in Ann Arbor, Michigan on the weekend of March 24th –25th, 2018.

The Breakthrough to Excellence program is aimed to provide physicians, physicists, and technologists with an abundance of information on improving workplace interactions, standards of practice, cardiac imaging and more. Additionally, Leadership from the national level will be speaking on the Quality Initiative, advocacy and how the SNMMI works to protect our profession. Several of lectures will provide SAMS credits (self-assessment modules) for audience participation and learning.

For our technologist students, don't forget to sign up for the Quiz Bowl where students from different schools compete against each other in a nuclear medicine knowledge-based, jeopardy-style competition for bragging rights and to earn their name on the Quiz Bowl trophy! Afterward you can explore the many shopping and dining options Ann Arbor has to offer.

A special thank you to our program chairs:
